Experience

Accenture	Mumbai
Senior Analyst (Transformation & AI Program Delivery)	Sep 2023 – Jan 4, 2026
Led enterprise-scale AI transformation and digitization initiatives across Telecom, Banking and Insurance domains spanning multiple international markets.	

- Delivered a GenAI-powered ticket validation platform that reduced invalid network escalations by 75% and generated approximately \$8.25M in annual recurring savings across 65+ sites.
- Managed end-to-end delivery governance for strategic transformation programs including roadmap planning, milestone tracking, dependency management, and executive reporting.
- Owned leadership governance cadence including weekly/monthly reviews, QBR preparation, leadership decks, operational narratives, and stakeholder communications.
- Directed cross-functional collaboration across Engineering, Operations, Compliance, Workforce, and Business teams to ensure alignment on strategic priorities and delivery commitments.
- Built analytics-driven KPI dashboards using Power BI and Excel to provide real-time visibility into project health, SLA adherence, operational metrics, AI accuracy, and transformation benefits.
- Led Agile execution including sprint governance, backlog tracking, risk mitigation, issue resolution, and delivery forecasting.
- Established governance discipline through RAID management, action tracking, escalation frameworks, and audit-ready reporting standards.
- Supported implementation of AI-enabled workflow automation, LLM-based troubleshooting validation, duplicate detection mechanisms, and legacy system integrations.
- Translated operational and delivery data into actionable insights by identifying trends, productivity gaps, root causes, and optimization opportunities.

Accenture	Mar 2021 – Aug 2023
Project Coordinator – PMO & Transformation Programs	
• Supported enterprise transformation and PMO governance initiatives across Telecom operations and digital delivery programs.	
• Managed milestone tracking, RAID governance, action closure tracking, governance reporting, and stakeholder communication across multiple workstreams.	
• Prepared executive dashboards, governance presentations, KPI reports, and leadership review materials for senior stakeholders.	
• Coordinated Agile workflows, dependency tracking, governance meetings, and cross-functional project execution activities.	
• Improved reporting visibility and operational governance through dashboard automation and process optimization initiatives.	
• Facilitated governance reviews, captured action items, tracked escalations, and ensured timely closure across stakeholders.	
• Supported operational compliance, audit readiness, and governance process standardization initiatives.	

Accenture	Oct 2019 – Feb 2021
Business Transformation / Operations Specialist	
• Led end-to-end process reengineering initiatives using Lean Six Sigma (DMAIC).	
• Identified automation opportunities and implemented RPA workflows improving operational efficiency and reducing manual workload.	

Accenture	Sep 2018 – Aug 2019
Team Lead – BPO Operations	
• Managed SLA-driven telecom support operations with accountability for service delivery, escalation management, quality governance, and operational reporting.	
• Led team productivity and resolution quality improvement initiatives through structured performance management frameworks.	
• Coordinated stakeholder communication and operational governance activities to improve delivery performance and service consistency.	

Sutherland Global	Mumbai
Business Consultant	2017-2018
• Acting as a primary interface with Technical Managers for all technical clarifications, dependencies and escalations	
• Supported project execution tracking, reporting governance, dependency management, and operational communication activities
